

COVID-19 EVENT PREPAREDNESS

The Cincinnati Parks Foundation is in touch with city officials and will continue to monitor COVID-19 and follow all recommendations directed from the Hamilton County Department of Health.

Guidance for Cincinnati Parks Foundation Event Planning

We are following CDC recommendations for our upcoming events utilizing enhanced planning through hygiene and public health measures. These actions help limit the spread of many communicable diseases and keep the community safe.

General Recommendations: Planning Considerations

- Per CDC recommendations, any public health related updates will be communicated to guests via our website (www.cincinnati parks foundation.org), social media, or e-mail.
- We are developing contingency plans if the event needs to be postponed.

Public Health & Hygiene Plan

- We will ensure adequate restroom facilities are available for proper hand washing.
- We are working to include proper handwashing stations or alcohol-based (60% or higher) sanitizing stations on-site (station at entry areas).

Food & Beverage Plan

- We are working with catering managers to ensure a high level of food safety training, handling and hygiene for all events.
- We will work with our catering partners to create a plan for staff illness or decreased staff possibilities.

Health Communication Recommendations

We would like to remind guests of current public health practices that ensure a comfortable and safe environment for all:

- Please do not attend the event if you have a fever, cough or respiratory symptoms.
- Handwashing is a best practice (20 seconds with soap and water).
- Avoid touching your eyes, nose and mouth.
- Cover your cough or sneeze with a tissue.
- We encourage all attendees to consider using a non-contact greeting instead of shaking hands. (Ex: simple wave, elbow bump, peace sign, etc.)

The health of everyone in attendance is our top priority. Please let us know if you have any questions or concerns. We look forward to having you join us at future events.

Additional Information & Contact Information

For answers to frequently asked questions, please visit the Center for Disease Control www.cdc.gov and visit their COVID-19 page.
